To:

Congo President
Mr. Denis Sassou-Nguesso
& Minister of State for Health

Dear Sirs:

I, **Lin Zhen Ma** am the inventor of PCT/SG2003/00145. The Singapore IC Card No. S2665604D, or Hong Kong IC Card No. is D188015(3).

According to international news, **Ebola's** outbreak cause many your state peoples to suffer from death and serious to damage state economy! So you must earnest to read at follow the attachment document that was an ultimatum letter to WHO's Director-General Dr Margaret Chan sent on **Oct., 27, 2014**, or the letter could be to find at the index page is:

www.ycec.com/UN/120617/witness-history.htm

Your Excellency will clear to know that murderer not the Ebola, the true murderer quite right, which is WHO's Director-General Dr Margaret Chan! 📧

Hence, as a result of WHO's Director-General Dr Margaret Chan up to now can not reply above my letter of ultimatum, 📧 and again reject for Ministry of Public Health of your country admit with recommend my invention of "**wash lung**" treatment in PCT/SG2003/00145 that only can to lifesaving for all the **Ebola's** patient the only one treatment and PFCO drug, therefore, the WHO's Director-General Dr Margaret Chan simply is a homicide fiends unscrupulously! 📧

Not only abovementioned, it still more critical is, above the invention of "**wash lung**" treatment in PCT/SG2003/00145 same the **only one treatment** for colossal sum those phthisis and acute pneumonia of aged people, under WHO's publish that 《worldwide tuberculosis report on 2014year》 to shown the global death toll of tuberculosis that have 150 ten thousand, but WHO can not to announce the death toll of acute pneumonia of aged people to approach every country population death rate 70-80%, this is an another still more huge to kill number! 📧 Therefore, the WHO's Director-General Dr Margaret Chan still more a human public enemy!

Honor Excellency, above the death toll in your country that was sufficient to become an action reason to support your country to claims 10-100 hundred million US dollars to be aimed at WHO, therefore, all the bereaved with mankind society's medicine civilized history in the act of to hope for your country to appear personally to bring a case to International Court of Justice or union with me!

On the side, about the equipment regarding the details of "**wash lung**" treatment, please kindly browse at my website of www.ycec.net, because this case involving human life is to be treated with the utmost care, your country's Ministry of Public Health not necessary to wait the guide from WHO, your country every hospital that "**wash lung**" room must to equipment two unit my PFCO machine to take turns use, if the amount I will low-priced to provide , if there have unaccounted-for, please do not concerned in writing email to ycec_izm@yahoo.com.hk or Fax at 00852-8169-2860 for me!

I, **Lin Zhen Ma** am well-known inventor PCT/SG2003/00145 in PCT by you. The Singapore IC Card No. S2665604D, or Hong Kong IC Card No. is D188015(3).

Under WHO's notification data received on **Aug. 06, 2014**, **Ebola** outbreak only claimed 932 lives, but this is already great high at the SARS's death toll at Hong Kong with China on 2003 years, so I urgently need to publish an open letter and the subject 《Ebola same American West Nile Virus, all the bereaved can to claims WHO & Obama!》 on **Aug. 07, 2014** and to be on show in my website at: www.ycec.com/UN/140807.pdf or Chinese www.ycec.com/UN/140807-hk.pdf, **now** to follow this letter is the Attachment 1. for you.

Under above the fact of open letter, I again to exposing in you illicit to handle all the WHO system again to conceal above the invention of PCT/SG2003/00145 that was a most important discover of medicine with invention of “**wash lung**” treatment in this century to ignore the Ebola patients already a field littered with corpses at West African State! But you only can to promptly convene WHO's news to proclaim Aug. 08, 2014 is an international assistance day for Ebola !

Purposed to give the green light for CP China immediately dispatch treatment group to West African States to **sneaking** use my “**wash lung**” treatment for **Ebola** patients and send out by two special planes on Aug. 10, 2014! You were very **naive** to wrong think thus may be to less your crime..., so I had added subject matter by Email display at www.ycec.com/UN/141006.pdf or Attachment 2. send to every Country Gov., with medium include WHO's subordinate etc., but you still not to know **stopped butcher Ebola patient** lead to today's death toll it was add to near the 5,000 person!

Now, notwithstanding you could to ignore above two Attachment document that my condemn and to look at the life not a matter. You are a **Director-General of WHO**, if you to know perfectly well that only one can to save life of SARS or Ebola patient the “**wash lung**” PCT/SG2003/00145 that **already to** bulletin by PCT on 2003year, if you have not skills to deny the medicine ethics in my invention, you must first to shoulder direct duty for 5,000 Ebola patient life and after the stretch that all guiltless life become a **super murderer** and **human public enemy** in the full light of public notice!

 My medical invention of PCT/SG2003/00145 that main points of medicine ethics are below:

1. The “Virus” it can to infect flu is a wrong to discuss and judge by before medicine circles, because **the** viral genome can not to replication by self absolutely, so the “Virus” was not a life and very easy to test by any hospital, therefore, the “**flu shot**” was harmful with useless it must to throw away!
2. Because in place of “Virus infect” is from air that “bacterial infection” it was a most important discover of medicine in this century, therefore, the most effective treat method is use the “**wash lung**” treatment of PCT/SG2003/00145 invention to clean away “bacterial infection” in the lung, besides it will not any effective drug could be to replacement.

As you are a **Director-General in WHO**, if you do not to overrule above two medicine ethics, then you must:

- a. to preside at recommend to lie by President Obama that ZMapp to West African States;

- b. to preside at accept the bacterin of VSV-EBO lie by Ministry of Public Health of Canada and WHO your prediction the “Ebola bacterin” will use in 2015 year to deceive the worldwide public to continue to kill without spilling blood.

If you not to overrule above two medicine ethics, at your mainpage in WHO website that, I discover that you self-praise you “ successfully defeated the spate of severe acute respiratory syndrome (SARS) in Hong Kong in 2003 ” thus unblushing, because you only can to encroach on SARS patient’s know power and stealthily use “wash lung” treatment of PCT/SG2003/00145 only can to successfully defeated SARS in Hong Kong in 2003 that a face witness was establish, therefore, I restrict you must to delete in three days!

If you do not to overrule above two medicine ethics and the “wash lung” treatment of PCT/SG2003/00145 that application value it can to extensively lifesaving for include SARS, Ebola or any type flu, phthisis with pneumonia of aged people ect. If have any to be about to die of an illness that patient have not the “wash lung” treatment to save somebody's life, all the bereaved have power to claims for you! Because international law has clear to regulations, so you have no right to deprive of their fundamental right to seek to live on;

If you do not to overrule above two medicine ethics and again refuse after you receive my this letter before 14days to recommend “wash lung” treatment of PCT/SG2003/00145 that application for any country Ministry of Public Health and response for me in writing, you commit to the crime is the 「Crimes Against Humanity」 of《Rome Statute of International Criminal Court》it will be to set up, I will to authorize interrelated lawyer to bring a case in International Criminal Court, you must to shoulder all counsel fee and you will to declare sb. Guilty become throughout history a most dishonorable a public enemy in mankind society and involve your coming generations!

On the side, please to be sure to keep in mind, you already have not any fallback position can to get away your duty in this evil history of mankind world to conceal medicine invention to commit innumerable murders, if you still have the intuitive ability to know right or wrong and plan to leave some leeway for your descendants that live space, I hope you must have the courage and to aid of now the WHO stage face all international medium bulletin the apply value of above medicine invention unexpectedly and resignation at once!

This letter will be facsimile to today’s Director of Health of Hong Kong , department of WHO or the United Nations turn fax to you and by a registered letter send out by HK post office!
