Respectable  
Mexico President  
Mr. Felipe Calderón,

Dear Sir;

The Olympic Games is approaching, by spreading of the Sudan-policy and Tibet-incident of China human rights which were become a subject of discussing of whether to attend the Olympic Games between the leaders of all countries of world, but it was obviously a geographical problem. The world is showing great concern over the incidents due to regional concern.

In fact, whom of various countries government most clear and harmful depth perception that looked down upon my medical invention. The human rights of China and not to stint price to coerce or lure by gain per big noise of every countries include your government as well as to deprive of that power of to know, to share joy and reduce death rate of your national!

Chinese Government's arrogance is because he is not an elected government. Therefore, he has not thought to conceal invent of medical science that is a guilty of terrible crimes already and he is no because whom must to furtively to put in use my invention that tort to have no choice it could be to lead to he has a little of kindly feelings to accord good treatment me!

Obviously, this is a government divided between the good and evil! Besides, the Chinese Government was giving every effort to eminent that dictatorial status of word-factory and various means to rope in Bush president as a persuasive talker to requests and force per countries of world include your country as will as together to conceal that WHO and China medicine same to feel quite helpless that medical treatment to cure to the pneumonia disease of SARS, Bird Flu and Phthisis etc. Therefore, my respected Your Excellency, you have a moral integrity responsibility to the following question of Chinese Government:

1. If our sportsman unfortunately infected with SARS, Bird Flu or Flu such as the near future of death cases in Hong Kong, except use the medical treatment of wash-lung (PCT/SG/0300145) anyone could be to guarantee our sportsman's life safe?
2. Perhaps if you to think you could use the fake trick to cheat our sportsman that could use the medical treatment of wash-lung by physiological saline to imitate the inventor's PFCO of PCT/SG/0300145 same the Hong Kong government's profess and use a special series of TV program to inform residents to part on Oct. 12, 2004 and Oct.19, 2004. In such a manner, what have we honored to attend your opening ceremony of Olympic Games?
3. Why China Government to say that must to separate sports from politics always? Inventor of the "PFCO wash lung" he is an outside investor of China too, what reasons to conceal his invent?

Beijing 2008 Olympic Games received the high concern of the international community on behalf of the civilization of the human society, but when you plan to attend the opening ceremony and you will step on Beijing's soil that was full of skeleton of undeserved die that because of here host has to feel scorn for popular power of life and immoral as wil as you country in unison to
